CLASS HISTORY

"The Peak of Success"

Morrison High School and its faculty have helped the Senior Graduating Class of 1936 climb successfully to the "Peak of Success." We appreciate every effort and kindness bestowed upon us by the Faculty and Board and hope they have enjoyed being with us as much as we have with them.

The Graduating Class of 1936 toiled earnestly and faithfully to achieve this glory.

THE FIRST LEDGE—In the year 1932 a large group of inexperienced climbers began to ascend toward the summit. Scared greenhorns scrambled wildly hither and thither up the mountain side, affording the guides and experienced climbers much amusement and anxiety. So the older climbers decided at the beginning of the climb to initiate the rats, much to the victims' discomfort. Therefore the Freshmen thought it wise to form a clan and elect leaders to govern them. They elected a very capable and trustworthy leader, Vera Wells. They finished their ascent to the first ledge, uneventfully and successfully, and stopped at the fountain there to enjoy a small vacation.

SECOND LEDGE—Our rested and haughty climbers continued on their journey a little more experienced but inclined to be conceited. On the way to the third ledge they met a new group of climbers who had just started the upward course and the Sophomores initiated them. A little later the Sophomores reelected Vera Wells as their leader and appointed other officers. Pausing in their arduous journey, the group decided to give a musical play, which the Sophomores helped produce successfully. After reaching the third ledge, they had another rest period.

THIRD LEDGE—A smaller group of intellectual Juniors began to ascend the mountain, more experienced and thoughtful than before. They elected a new and efficient leader, Ruth McKinney, and a group of new officers to help and guide them on their way. On the way to the fourth and last ledge the Juniors decided to give the Senior climbers and the guides a banquet. Everyone appreciated the banquet and had loads of fun. The Juniors, desiring some significant emblem to bind them together, made rings of grass to confirm their friendship. In order to celebrate this important occasion they held Crigler's Minstrel. They finished their climb, happy and tired, and looking forward to their last journey together.

FOURTH LEDGE—A large, dignified class of Seniors started out from the fourth ledge to climb to the "Peak of Success." Some were new friends and some were old friends, but all true friends and comrades to each other. Immediately after starting on their final climb, they appointed Robert Brooks as their leader. Halfway the group becomes nervous and excited; they were coming to difficulties, rocks, or so-called mid-term exams. The group passed over these after much hard work and labor and began their fun, occasionally coming upon smaller rocks. The Seniors had one continued round of joy and fun together. They had parties, pictures, entertainments, plays. Suddenly the Seniors were almost within touch of their aim, when a large group of rocks arose ahead, in front of the Peak. They passed these mighty obstacles, successfully and joyfully. They, graduated climbers, stand on the Peak of their aim, a little sad and a little proud, looking out into the mystery of the future.

ESTELLE FULCHER, '36.

CLASS PROPHECY

Folks! Tonight you are about to witness the first public trial of the radio-scope screen, invented and perfected in our joint laboratory by my distinguished former classmate, Doctor John Massenburg. The screen is designed to reflect the words and actions of any person at any point on the earth. With it we will attempt to contact the other members of the graduating class of five years ago. Doctor Massenburg, throw the switch.

First, we find on a Tidewater truck-farm a dark-eyed farmerette. It is Helen Woodlief who, although a New Yorker, has not lost her interest in Hicks.

Next the scene shifts to an operating room. The doctor? Bill Ehmig, now the world's greatest surgeon. The nurse? Virginia Warren, his trusted assistant. The patient? Luther Alexander, leader of Alexander's Jazz-Time Band, in which the talented Miss Jenkins plays second fiddle, and Rufus White earns his title "Sultan of the Sax." The operation? Renewing Luther's permanent wave.

Another shift. This time to Floyd Bennet Field. Why has this crowd gathered? To celebrate the return of George Holleman, who flew to Venus last week to instruct the Venusians in the gentle art of caddying. Plans for his plane, the Forcstine, were drawn by Bobby Brooks. There is a disturbance on the edge of the crowd. Mildred Denton, truant officer, has collared two young students who have played "hooky." Their names are Estelle and Russell Weade.

Now silence. A laboratory, in which a group of learned men gather around two attractive young misses, one a blonde, the other auburn-haired. They are Peggy Salisbury and Virginia Knight, co-discoverers of the ninety-third element, Salisbarite.

Hm! a schoolroom. Miss Marian Cooke is conducting a highly attentive shorthand class.

Now the new Morrison post office in which Edna Harris, postmistress, sits watching anxiously for the three-thirty train.

To the Senate in Richmond. Do you recognize that handsome gentleman arguing so vehemently? It is Senator Henry Holleman, declaring that four years of history should be made compulsory in Virginia schools.

Oh! a small shop on Broad Street. The sign over the door reads "Vera's." Inside we see Vera Wells displaying the latest Paris creations for dolls.

Another scene, the Gobi Desert this time. In front of a small tent, surrounded by native guides and porters, sits Janet Brooks, the most daring woman explorer of the age.

Lo! A group of reformers destroying the furnishings of a fashionable night club. At their head, hatchet in hand, marches the second Carrie Nation, Sarah Barclay.

The private office of the President of the United States. The President stands tall and serene. He is Roy Holliday, whose oratory and common sense have marked him as a new Lincoln. He is conferring earnestly with his cabinet, in which Anna Brooks is postmistress-general.

Now a desk littered with mail. Behind it sits Bethany Wood, founder and Grand Mistress of that nationwide organization, the Spinsters' Club. She is reading a letter from Nellie Smith, manager of Reno's largest hotel for unmarried women.

Now we see Shenk-Layman Institute for backward children. Its founders, Margaret Shenk and Mary Layman, have filled a long felt need in the field of education. Dot Kesler is one of the school's best instructors.

We go now to Washington, D. C., where Betty Thompson is having her ups and downs as elevator girl in the Washington monument.

In America's capital we find Miss Genevieve Houser, Washington society leader, giving a ball in honor of Mademoiselle Hatty Brown, whose forceful speeches and perfect French have brought her the honor of being first American woman elected to the French Chamber of Deputies. Among the guests are Evelyn Keane, the great woman sculptor; Ruth McKinney, noted woman evangelist; Charlotte Langslow, the well-known hairdresser, and Dorothy Holloway, famous modern poet.

We see next a dainty cottage. In the front yard is Doris Wiseman, who has married a "good man" and settled down for life.

Great cheering. A packed stadium. It is the last quarter of the Army-Navy football game. The score is nothing to nothing and it's Navy's first down on Army's twenty-yardline. Who is that worried looking Army coach? As he faces us, his black wavy hair identifies him as Stanley Evans.

Now we see a busy telephone exchange where Mary Alice Hussey is just plugging in a call between Frances Owens, the year's star Ford saleswoman, and Lena Paris, private secretary to Necia Diffenderfer, of the brokerage firm, Diffenderfer, Ellison and Dadds.

Florence Barnard has evidently taken up her chosen career; we find her acting as nurse to Marguerite Holloway, who has suffered a nervous breakdown due to her exertions in touring the country in a series of religious lectures.

The demonstration now ends with a view of the Redman Sisters' Conservatory of Music, where we hear a duet sung by Audrey Cox and Nadine McQuillan.

ROBERT WADE SEWARD, JR., '36.

JANET BROOKS, '36.

CLASS CREED

As the time draws near for us to go out and meet Life, we, as seniors, feel that we are able to do this because of what our beliefs have done for us. We will carry them with us in the future and may they continue to guide us.

First, and most important of all, we believe in God, our ever present help.

Furthermore, we believe in our class, and our motto, "We learn not for school but for Life." We are convinced that each of us will conscientiously assume his life's work and responsibilities.

Our faculty has helped and guided us through so many dark paths that they will long live in our memory as noble souls. We believe in Mr. Mort, our principal, who has believed in us and constantly urged us onward.

We believe in our school, its various clubs and organizations. But especially do we believe in our coaches, Mr. Crigler and Mrs. Messick. They have taught us how to play the game fairly—a lesson that should never be forgotten. They have shown us that it is not the winning nor losing of the game that counts most, but how it is played.

And last, we believe in our country, the United States of America, to us the greatest country on earth. To it we pledge our allegiance.

Because of our beliefs we are nearer our goal.

"PEGGY" SALISBURY, '36.

"OUR GOAL"

*As Freshmen small we first set sail
Upon the Sea of Knowledge.
"Old Morrison," our good ship's name;
Our journey's end was "College."*

*As Sophomores the sea was rough,
And waves of toil swept o'er us;
But Captain Mort was at the helm,
And all the crew worked for us.*

*As Juniors we felt unafraid,
The port was drawing nearer.
We learned to man the ropes a bit;
Our course became much clearer.*

*As Seniors we have come to find
The journey's just beginning.
The Sea of Knowledge stretches far—
But Life's Goal is worth winning.*
